

Sara Sadoun

Junior Full Stack (MEAN) Developer

Education History

- **BSc Electrical Engineering – Computer & Systems Department**
Graduation Year: 2025

Experience

MEAN Stack: Web Developer Career Accelerator – National Telecommunication Institute (NTI) 210 Hours | October 2025 - January 2026

- I gained mastery in critical technologies and methodologies across the full MEAN stack (MongoDB, Express.js, Angular, Node.js), while also developing competencies in areas crucial for freelance success, including client communication, SEO optimization, web application security, project management, UI/UX best practices, agile workflows, debugging.
- this great opportunity has given hands-on and project-based experience

Certifications & Training

- **MEAN Stack: Web Developer Career Accelerator – National Telecommunication Institute (NTI) 210 Hours | October 2025 - January 2026**
- **IELTS – 6.5(B2) | 2019**

Projects

Graduation Project – Student Information Management System (SIMS) | React & PHP :

- Developed system to manage student records, converted certificates into dynamic HTML templates, organized student data, and designed user-friendly interfaces.

Hospital Management System demo | MEAN Stack (Dec 2025 – Jan 2026)

Udemy-Style Demo Platform | HTML, CSS, JS, Bootstrap (Oct 2025)

- Developed a 4-page prototype with login, signup, shopping cart, and checkout functionality using JavaScript and Local Storage for data management, with validation and local storage
